

# Evolution Theory's Fatal Flaws

“Evolution is a fairy tale for grown-ups. This theory has helped nothing in the progress of science. It is useless.” Professor Louis Bounoure, Director of Research, National Center of Scientific Research, *The Advocate*, 8 March 1984.

“I myself am convinced that the theory of evolution, especially the extent to which it has been applied, will be one of the great jokes in the history books of the future.” Malcolm Muggeridge (British philosopher), *The Advocate*, March 8 1984.

## Fatal Flaws

- ✦ We know instinctively that something cannot be created from nothing by natural processes. Matter, energy, molecular structure and physical laws like magnetic fields and gravity exist so we know there must be a cause for their existence. Evolution theory does not satisfy the cause.
- ✦ The “big bang theory” requires the prior existence of components to fuel the presumed event. Yet evolution theory ignores the origin of the components needed for a “big bang” to take place.
- ✦ A “big bang” event would logically causes chaos and commonality. Yet the universe is filled with billions of galaxies, stars and celestial bodies, each discovered to date being unique.
- ✦ Our universe and earth itself are finely tuned beyond any mathematical probability.
- ✦ Life has never been observed to be created from non-life. Yet all living things are made from non-living molecules. Suggesting that if you have a couple building blocks you can get life is a delusion. From all the experiments ever conducted evolution simply can't account for life itself.

- ✦ When Darwin looked for an alternative explanation to a creator God, he had no understanding of the complexity of a single cell. He had never heard of the complex information system of DNA, RNA and protein model. He didn't know that the protein that makes DNA can only be made using the coded instructions on the DNA itself. This circular interdependent process, like many others, could not have evolved.
- ✦ Evolution theory demands transitional fossil evidence. Instead we get hoax after hoax: Java Man - extinct ape; Piltdown man - hoax; Nebraska man - extinct pig; Ramapithecus - ape; Lucy - ape; Neanderthals - human. **“Scientists concede that their most cherished theories are based on embarrassingly few fossil fragments and that huge gaps exist in the fossil record.” *Time* magazine, Nov. 7, 1977**
- ✦ Our bodies are supported by interdependent irreducibly complex organs and systems which cannot be created slowly over time as mandated by evolution theory. Unless everything was present right from the beginning, we simply could not exist.
- ✦ Evolution theory contends mankind evolved from primates. At least 61 primates make up the total primate population of 1.6 million. There are 7.3 billion humans living today, 4550 x the primate population. If evolution theory was valid there should be about 277,500 new species spawned from humans. There are none.

- ✦ Evolution theory claims that beneficial mutations are key to developing life forms. Yet testable science verifies that harmful mutations dominate the mutation process from fruit flies to humans.
- ✦ Reproduction - Most species reproduce only by means of uniting male and female. Once human reproduction begins nothing is added to support the unborn baby except nourishment. The unborn baby lives in a water world for 9 months, at which time it undergoes physical changes allowing it to live in the air breathing world we enjoy. The process of birth defies a credible evolutionary explanation.
- ✦ A simple caterpillar transforms into a beautiful butterfly in a matter of days, not billions of years. Nothing in evolution theory can account for this.
- ✦ Carbon and Radioisotope age dating methods are filled with assumptions and are inaccurate when the dates are known. Evolution is not a 'fact' it is flawed.

**“Evolution is unproved and unprovable. We believe it because the only alternative is special creation, and that is unthinkable” Sir Arthur Keith. Criswell, W.A. (1972), *Did Man Just Happen?* p. 73, Grand Rapids, MI: Zondervan).**
